LUMINA
OMEGA+

LUMINA

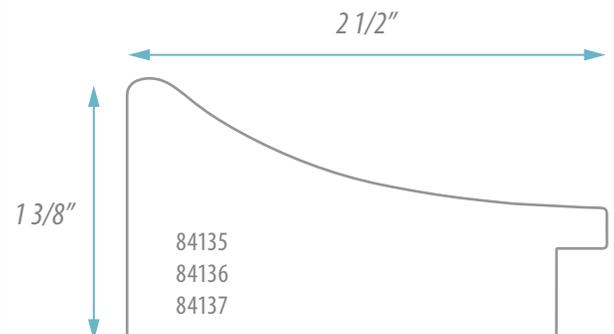

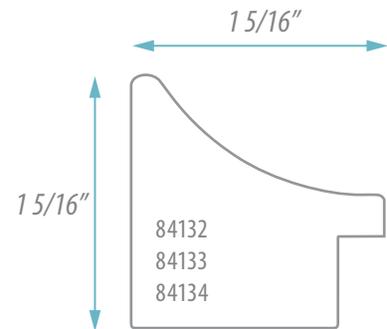

In hues of silver, pewter and bronze, the Lumina Collection uses subtleties in tone to integrate metallic finishes with an array of color schemes. Its texture mixes horizontal brush lines with vertical striations in the leaf which are enhanced with wash to bring out beautiful highlights. Upon the classic scooped profile, this composition creates illumination emanating from the artwork to the eye.

The neutral palette and transitional silhouette of Lumina suits a variety of artwork in color and genre. It provides elegant framing solutions for photography and graphic art prints, as well as delicate fine art works such as watercolors, drawings, and hand-tinted vintage lithographs.

Bright As A Feather △

The soft brilliance of Lumina is brought forth by its texture and finish. It is an elegant solution for black and white photography and gives a delicate treatment to drawings and watercolors
