MERCER

The Mercer Collection features unique old-world finishes that are hand applied to achieve a richness and complexity to each surface. Mouldings in the leaf finishes are finished with glaze and pigment to achieve an aged patina. Lacquered items employ heavy brush lines over deep, warm toned base coats. Grey, ash white, and umber are employed with a crackle finish on items 83883 and 83889 then finished with gloss lacquer.

△ Mercer features tall rabbet depths on 6 items (83878-83), ideal for shadowboxes, canvas works, or stacking frames. These 6 items are FloatMate™ compatible, stacking onto floater 83541 to create attractive floater frames.

Mercer profiles are substantial and have rabbet depths well equipped for framing 3-dimensional artwork, canvases, and multimedia pieces. Transitional in genre, Mercer is a collection that provides framing and interior design solutions from classical to modern art.
